Subject From William Wiseman case # 09-CV-00309-MSK-KMT

Dear sir

My name is william wiseman my mailing address is p.o.box 693 klamath falls oregon 97601 i used too run a radio station and turned it into family rights radio where people could talk about there Problems and i was just starting off and it took me a month and three hundred dollars invested to start so i could help others and in return for my services i only received 25 dollars a month nothing more and Mrs. suzanne Shell Sent me an email claiming i stolen family rights radio and i better give it back or eles and i said i stole nothing please leave me alone and latter i posted something on this yahoo group as i wanted the owner of the group to please explain it too me as i was still learning How Too read and of course i took it from a website But as God is My Witness i had No Idea the website Belonged Too Suzanne Shell and she sent me a email and told me that i owed her 900,000,00 thousand dollars when do i intend too pay or must she sue me and i told her too Go Jump in a lake..

so she Built a website where she calls me a Retard and even in her motion before this court she tells this court that i have mental problems and the Only way mrs.shell would know this is Because of others shell has no report on me being a retard and even if i was so what i think i make killer websites and the person that took care of me taught me how and always heard that you have Two Choices In Life You Can be angry all your life and go out and Hurt others or You could Help Others. sense this Fight Started with mrs.shell The person that took care of me passed away and my dog passed away from the 2007 pet food recall and had i been researching stuff on pets instead of fighting mrs.shell i would have understood why My Dog was sick instead of Being part of one of the biggest Class actions in history i didnt want too sue menu foods i wanted my dog..a three year old ran up too my dog one time at the post office and Bear Hugged him before he passed away and the mother was too scared too come up too my dog and said dont your dog bite and i said no i taught him not too plus it was a service dog. anyway as for shell she also admits in court Records That She Hacked my Computer and she did a number on my computer in which my computer Crashed so i called a friend of mine who works for Hewlett-Packard and we Both Called Microsoft too get my computer back up and running after Microsoft helped me he had me put some software on my computer and if something went wrong with my computer he would log in

and take care of it. what my friend does for Hewlett-Packard he is under contract with walmart and anytime something happens too their computers he would log in and fix them like he did for me and he kept people from hacking my computer .and if you would look at shells complaint count three under mail and wire fraud where shell said my computer stealthily transmit first of all i didnt transmit anything as for the stealth part i admit it guilty as charged as shell has no business hacking my computer and destroying my system and a friend of mine who i designed a website for put me in touch with a friend of his and that is the guy that works for Hewlett-Packard and walmart and anytime my computer would have problems he would take care of it and i didn't even need too be home for him too work on my computer and he was over two thousand miles away.as for her bandwidth and her website shutting down that was not my fault or the fault of anyone that i knew That was because she wrote the igeeks a message and i grabbed a copy so down the line shell could not call me a liar like the time shell put up a web page On her website calling for the death Aimee Dutkiewicz and i thought that was sad someone could even think such a thing and Aimee Dutkiewicz told me over the phone that shell and her gang stalked amy at her job and she lost two jobs and shell told tom to get a devorce from amy Dutkiewicz and it happend tom and amy divorced shell keeps putting me down even calls me a retard on her website and complaint before this court so i built my website too tell the truth about what is happening too me and when my website went up shell claimed copyright infringement and had my name and address made public and even Thought it was Funny having my website shut down twice and she even put my name and home address up on her website causing me emotional distress and even Going after one of my clients whom i built the website for free saying that his website was stolen and copyright infringement and Now he tells me how sorry he is for listing too them as he called me up and yelled at me and i said everything i put onto your website i built it my self..But shell has such a mine that if someone is retarded they dont know how too speak for their self let alone build a website and of all the things and stalking shell and her gang did too me i have not sued them i just Built a website of my own a truth site where people could express there discuss of shell and her gang of stalkers and if i can get a picture or two and have shell dancing like a devil baby that would be fine by me and i got more pictures then i know what too do with and shell saw the devil baby and said whats the point and i said Look Harder and you will see the devil baby is none other then You and all hell broke lose she went after my isp every one and it was Funnier Then Heck Watching her get madder then a wet hen at me My website was well worth the effort and all jokes and websites or anything too This court aside like shells complaint Not Once Has shell Said The words Im Sorry Nor has shell sent me any kind of A *cease and desist* (also called C & D) Letter what so ever she always made Threats and her Trade secrets is shell will steal stuff from all over the web and copyright it even the law and if you use it you are committing copyright infringe ment because shell copy righted the law and the works of others and when me and my website proved it the lawsuit is what you see today shell is claiming 42 people did this too her and that where she be wrong in regards too my website there are about three writers that took part too tell the truth or edit my words and i was not allowed too post anything without permission and it was my website However im not good with words and people were looking out for my Best Interest But when it comes down Too Proving where mrs.shell stolen Something From with The Link Too Prove it .. it was a one Man Show It was Me all The way along with the help of copyscape dot com and i kicked shells butt showing she was a thief i begged and pleaded with shell too take my name off her website she refused and demand that i give her 900,000,00 thousand dollars stalked me on the net so i gave up my Radio station and my web design business sort of as while i was working on my website other people needed work done and i said no charge don't worry about it and i kicked shells Butt Big time she calls me a shit throwing monkey and a retard But what i was doing was i was copy her own words while Building a website with out a word of my own and she was smoking she claimed my website was the truth is not told and all i was doing was using her own words and when she Realized what i was doing it was Too Late She Made a Ass Out Of her self and if shell

claims she is a member of the Press shes Not The audio is on my website she printed her
press pass on her Home computer
god bless you and

Ok, I have called the Clerk's office and spoke with the Deputy Clerk there. She stated that we all need to wri
what is going on.

We need to explain the abuse (and do not minimize it) ie. The postings on the internet she is making, and the
of us. If you have a copy of this, attach it as an exhibit for the judge to review. And she states that the judge v
email, the only thing we have to be concerned with is the copy with the courts stamp on it.

The Judge on this case is: The Honorable Judge Krieger, at the address below.

In addition, Yes, Sue the information is correct and thank you for it.
and Yes Leonard, you need to send it snail Mail to the Judge.
